Fax:+82-2-3282-1459

E-mail: cnc@kukdo.com

SECTION 1 – CHEMICAL IDENTIFICATION

Trade Name: HJ-2200M

Synonyms: Methyltetrahydrophthalic Anhydride

Chemical Family: Alicyclic Anhydride

Chemical Use: Chemical intermediate

HMIS Hazard Rating

Health: 2*

Fire: 1

Reactivity: 1

4 = Extreme

3 = High

2 = Moderate

1 = Slight

0 = Least

*-Chronic effect indicator. See Section 11.

PPE rating to be supplied by user
depending on use conditions.

SECTION 2 – COMPOSITION AND INFORMATION ON INGREDIENTS

Components

CAS #:

Methyl Tetrahydrophthalic Anhydride

11070-44-3

Tetrahydrophthalic Anhydride

935-79-5

EXPOSURE LIMITS(ppm):

OSHA(ACGIH)TWA: Not established

OSHA(ACGIH)TSTEL: Not established

OSHA(ACGIH)CEILING: Not established

Note: N.E. = Not Established

N/A = Not Applicable

SECTION 3 – HAZARDS SUMMARIZING

GHS Volume Label Element

WARNING

Inhalation: May cause nose, throat, and lung irritation. May cause respiratory tract sensitization.

May aggravate pre-existing respiratory disorders. Chronic exposure may cause bronchitis and asthma.

Skin Contact: May cause severe irritation. Contact with moist skin may cause burns. May cause skin sensitization. May aggravate pre-existing skin disorders.

Eye Contact: May cause severe irritation or burns.

Ingestion: May cause burns of the mouth, throat, and gastrointestinal tract.

SECTION 4 – FIRST AID MEASURES

Eye Contact: Immediately flush with plenty of water for at least 15 minutes. Get medical attention.

Skin Contact: Immediately remove contaminated clothing and shoes. Wipe excess material from skin and flush with water for at least 15 minutes. Use soap if available or follow by washing with soap and water. Do not reuse contaminated clothing without laundering. If irritation persists, seek medical advice.

Inhalation: Remove victim to fresh air. If breathing is difficult, give oxygen. If not breathing, administer artificial respiration. Get medical attention.

Ingestion: Get medical attention immediately

NOTE TO PHYSICIAN

Skin:	May cause dermatitis. Treat as any contact dermatitis. Skin sensitizer. Not likely to be absorbed in acutely toxic amounts.
Eyes:	Injury is unlikely. Stain for evidence of corneal injury.
Respiratory:	Injury is unlikely.
Oral:	Low in toxicity.
Systemic:	Human effects not established. No specific antidote. Treatment based on the sound judgment of the physician and the

individual reactions of the patient

SECTION 5 – FIREFIGHTING MEASURES

Extinguishing Media: Use water, foam, dry chemical, or carbon dioxide (CO₂).
apparatus.

Special Firefighting
Procedures/Precautions:

Firefighters should wear NIOSH approved self-contained breathing	Responders should wear protective clothing to prevent skin contact. Move containers from fire area. If unable to move, cool sealed containers with water.
--	---

Unusual Fire and Explosion Information:	This material reacts with water or steam to form methylTetrahydrophthalic acid. This reaction is slightly exothermic. It should not present any problems if large quantities of water are used.
--	--

Environmental Note: N/A.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

PERSONAL PRECAUTIONS: Do not breathe vapour.
Use gas filter, plastic gloves and safety goggles.

ENVIROMENTAL PRECAUTIONS: Do not allow to enter sewage system.

METHODS FOR CLEANING UP: Take up with liquid-absorbent material.
Forward for disposal
Wash away remainder with plenty of water.
Refer to manufacturer/supplier for information on
recovery/recycling.

SECTION 7 – HANDLING AND STORAGE

STORAGE: Keep in cool, dry, ventilated storage and in closed containers.
Keep away from: heat, sparks, and flames

HANDLING: Avoid contact with skin or eyes.
Avoid breathing of vapors.
Handle in well ventilated work space.
When handling, do not eat, drink, or smoke.

OTHER PRECATIONS: Emergency showers and eye wash stations should be really
accessible. Adhere to work practice rules established by
government regulation.(e.g.OSHA)

SECTION 8 -EXPOSURE CONTROLS AND PERSONAL PROTECTION

Eye Protection: Splash-proof eye goggles. In emergency situation, use eye goggles with a full face shield.

Hand Protection: Neoprene rubber gloves.
Impermeable gloves.
Nitrile rubber gloves.

Respiratory Protection: Not required under normal conditions in a well-ventilated workplace.

Protective Clothing: Long sleeved clothing.

Engineering Controls: No specific controls needed.

Work and Hygienic Practices: Provide really accessible eye wash stations and safety showers.
Wash at the end of each work shift and before and eating, smoking, or using the toilet.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Boiling Point: 554°F (290°C)

Melting Point: <-15°C

Vapor Density (Air = 1): >1.0

Solubility in H₂O: Reacts slowly with water.

Appearance: Clear& transparent liquid.

Order: Faint odor.

Specific Gravity (H₂O = 1): 1.19 (20°C) .

Evap. Rate (Butyl Acetate = 1): N.E.

Flash Point: 300 °F (149°C) PMCC, ASTM D93

Lower Explosive Limit: N.E.

Upper Explosive Limit: N.E.

Autoignition Temperature: N.E.

SECTION 10 – STABILITY AND REACTIVITY

Stability: Stable.

Conditions to Avoid: Avoid storage at elevated temperatures.

Incompatibility: Water, alcohols, acids, bases, and oxidizers.

Hazardous Decomposition: Oxides of carbon. Occurs above 220°C.

Hazardous Polymerization: Will not occur.

SECTION 11 – TOXICOLOGICAL INFORMATION

TOXICITY

The toxicity information provided below is for the closely related materials, Methyl tetrahydrophthalic anhydride(mixed isomers) and Tetrahydrophthalic anhydride.

ACUTE

For Methyltetrahydrophthalic anhydride(mixed isomers):

-oral LD₅₀(rat); 2140mg/kg;

-dermal LD₅₀(rat): >2000mg/kg

-dermal LD₁₀(rabbit):1410mg/kg

-skin irritation(rabbit): Mild irritant.

-sensitization(human-epidemiological): Sensitizing. Causing bronchial hyperreactivity, IgE-mediated allergic response.

SECTION 12 – ECOLOGICAL INFORMATION

No data available.

SECTION 13 – SPILL AND DISPOSAL INFORMATION

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Caution! Floors may become slippery. Wear appropriate protective gear and NIOSH/MSHA approved respirator when mists or vapors of unknown concentrations may be generated(self-contained breathing apparatus preferred).Dike and contain spill with inert material(sand, earth, etc.).Transfer the liquid and solid separately to containers for recovery or disposal. Wet residue with water and absorb with inert material(sand, earth...)and transfer into appropriate containers disposal. Keep spill out of sewers and open bodies of water.

WASTE DISPOSAL METHODS

Dispose of in compliance with all Federal, state and local laws and regulations. Incineration is the preferred method.

Disposal containers: the container should carry to the approved of the waste treatment plant to dispose

SECTION 14 – TRANSPORTATION INFORMATION

Packing method:220kgs iron drum or 25kgs plastic drum

Not regulated by transport of dangerous.

SECTION 15 – REGULATORY INFORMATION

TSCA: All substances are listed on the TSCA inventory

Sara Title III

Section 302/304 Not Listed

Section 311/312 Acute

Section 313 Toxic Chemicals: Not Listed

CERCLA RQ: Not Listed

TSCA 12(b) Export Notification: Not Listed

California Proposition 65: Not Listed

European Regulations:

EINECS Number: Methylterahydrophthalic Anhydride: 234-290-7(247-830-1)

Labeling according to Regulation(EC) No 1272/2008

Index No. 607-240-00-0

Labeling according to Regulation (EC) No 1272/2008 Annex VI Table 3.2

Symbol(s):

Irritant

R-Phrase(s): R41: Risk of serious damage to eyes
R42/43: May cause sensitization by inhalation and skin contact

S-Phrase(s): S2: Keep out of reach of children
S22: Do not breathe dust
S24: Avoid contact with skin
S26: In case of contact with eyes, rinse immediately plenty of water and seek medical advice.
S37/39: Wear suitable protective clothing,gloves and eye/face protection.

Labeling according to Regulation (EC) No 1272/2008 Annex VI Table 3.1

Pictogram(s):

Hazard-statements	H318:	Cause serious eye damage.
	H334:	May cause allergy or asthma symptoms or breathing difficulties if inhaled.
	H317:	May cause an allergic skin reaction
Signal Word:	Danger	
Precautionary statements:	P261:	Avoid breathing dust.
	P280:	Wear protective gloves/protective clothing/eye protection
	P305:	IF IN EYES:
	P351:	Rinse cautiously with water for several minutes.
	P338:	Remove contact lenses, if present and easy to do. Continue rinsing.

Canadian Regulations:

Methylterahydrophthalic Anhydride is listed on the DSL.

This product has been classified in accordance with the hazard criteria of the Controlled Products. Regulations and MSDS's contain all the information required by the Controlled Products Regulations.

SECTION 16 – OTHER INFORMATION

MSDS Preparation Date: 2008.12.01

Updated Date: 2016.6.10
